Following the interview at [REDACTED] residence, she was contacted by telephone by SA [REDACTED] at which time she provided the following information:

[REDACTED] stated that after learning that the WTC was on struck by airliners, all of the employees went outside of the building to watch. They stayed outside for a little while until [REDACTED] told them to get back to work. When they went back inside, someone, possibly [REDACTED] and/or [REDACTED] went back to the warehouse to look for a television so they could watch the news at work. [REDACTED] does not recall seeing anybody taking pictures outside the building, although, she does recall that [REDACTED] had received a new camera from [REDACTED] the day before.

At approximately 8:15 a.m. on 09/11/2001, while leaving  
the above-referenced apartment complex, [redacted] observed a white  
van parking in the rear parking lot of the apartment complex. A  
male individual appearing to have a brown but not dark complexion,  
round face, dark hair, approximate age 30's, was driving the van.  
He drove the van very slowly into the rear parking lot, paused, and  
backed into a parking spot which, from the front, overlooked the  
New York City skyline. No passengers were visible. Upon returning  
to the area, at approximately 9:20 a.m. that same day, the  
interviewee did not see the van.

The van was white and had no windows on the sides. It  
appeared to be a utility van for an electric company because the  
words 'electric supplies', among others, were printed on it. The  
name of the utility or vendor company, since forgotten, was in red  
letters on the van. The license tag was not noticed.

Usually, utility or service vehicles at the complex  
building parked in the front. This vehicle was parked in the back  
which is why it came to the interviewee's attention. It seemed out  
of place.

On 09/16/2001, [redacted] Date of Birth [redacted] was interviewed at his place of residence. After being advised of the identity of the interviewing agent and the purpose of the interview, [redacted] provided the following information:

b6  
b7C

On 09/11/2001, [redacted] heard of the attacks on the World Trade Center and drove from his residence to Liberty State Park, Jersey City, New Jersey in order to give blood. HE arrived at Liberty State Park sometime between 10:00 AM and 11:00 AM. Approximately 20-30 minutes later, [redacted] observed a truck enter Liberty State Park. The truck was new, either a 2000 or 2001 model year GMC box truck with dual rear wheels. The box had rivets on the outside which indicated to [redacted] that the inside was lined with wood. There were silver caps, on the top front corners of the box and the rear had a roll-up door. The box was approximately 14 feet high and 16-18 feet long, similar in dimensions to a Ryder rental truck. The side of the box had a sign which said Urban Moving in black letters. [redacted] did not recall the exact words, but recalled it contained wording to the effect of Urban and a moving company along with an unrecalled (973) telephone number. The truck had no apparent dings, dents or scratches on it and was remarkably clean for a moving truck. The truck backed into a parking space near the pier, within 50 feet of the water. [redacted] did not see anyone exit the vehicle. [redacted] recalled that the Urban Moving truck left Liberty State Park just after an announcement was made to close Ellis Island. At this time, [redacted] saw three males approach and enter the vehicle. [redacted] viewed the males from a distance of approximately 40-45 yards.

[redacted] described UNSUB 1 as the driver of the van, age: 20's, approximately 5'6" to 5'9", 165-175 pounds and had skin-tone which could have been that of Mexican origin. UNSUB 1 looked light, and didn't look like he would work as a mover. He wore faded blue jeans, white short sleeve tee-shirt, and a black vest, possibly leather. UNSUB 1 also wore a black fanny pack of average size which hung to look as if it contained three to five pounds of weight inside. The fanny pack hung just below UNSUB 1's front left pocket of his jeans. [redacted] did not get a good look at UNSUB 2 or UNSUB 3 and described both of them as being in their 20's,

In that connection, SA [Redacted] interviewed [Redacted] date of birth [Redacted] SSN# [Redacted] and her [Redacted] [Redacted] date of birth [Redacted] SSN# [Redacted]. Both reside at 100 Manhattan Ave, Apt 402, union City, NJ. Their telephone number is [Redacted].

[Redacted] provided the following information.

[Redacted] saw nothing unusual in or around the apartment building during the past two days.

In the beginning of the summer, [Redacted] began to occasionally see an old man in building's parking lot. This man, who appeared to be in religious dress, would be accompanied by five or six younger men. All the men dressed like Muslims and all had long beards.

The old man had salt and pepper colored hair and wore white or purple clothes on the occasions [Redacted] saw him. She has never seen him inside the building, only in the parking lot.

[Redacted] provided the following information.

A few days ago, he saw the same man in front of the 100 Manhattan Ave leaving the building. The man was wearing purple clothing and was surrounded by a number of other men who were kissing him. [Redacted] saw the man get into a new model economy car and leave.

On September 14, 2001, the Newark Division of the Federal Bureau of Investigation (FBI-NK) initiated a Full Field Investigation predicated upon circumstances indicating that five (5) Israeli nationals, detained in conjunction with the PENTTBOMB investigation, had reportedly videotaped the terrorist attack on the World Trade Center (WTC) and may have possessed foreknowledge of the same. The following summarizes the investigation to-date.

(U) (S/OC/NF)

On September 11, 2001, numerous complaints received by FBI-NK revealed that several individuals had been observed celebrating following the initial crash of an aircraft into the WTC. T-1, a resident of Union City, NJ, advised that at approximately 9:00 am, T-1's neighbor, T-2, called T-1 on the telephone to tell T-1 that T-2 saw smoke coming from the WTC. In order to see the WTC more closely, T-1 used 7x33mm (likely 7x35mm) power binoculars to view the scene from the rear window of T-1's apartment. While looking in the direction of the WTC, T-1 observed three (3) males kneeling on the roof of a white van located in the rear parking lot of T-1's apartment complex. It appeared as though they had noticed T-1 as well. (S/OC/NF) (U)

ALL INFORMATION CONTAINED

T-1 described the males as white, mid-twenties, no facial hair, no glasses, "clean-cut," no hats, all wearing short sleeves, with lean builds. Other identifying data was also provided. T-1 described the white van as a "box"-style van which had no windows on the side; it reminded T-1 of a telephone company van. (S/OC/NF) (U)

According to T-1, one of the males appeared to be taking still photographs and video of the other males with the WTC in the background. All of the males appeared to be jovial in (U)

that they smiled, hugged one another, and gave "high fives."  
(See attached photos). As the vehicle later left that area, T-1 recorded the New Jersey State license plate as JRJ-13Y. Later that day when T-1's spouse returned home, T-1 provided the police with the information pertaining to the males. ~~(S/OC/NF)~~ (u)

Another complaint received by FBI-NK revealed a second eyewitness who reported having observed a white van in the same parking lot as described by T-1. This eyewitness, however, observed the van in the parking lot as early as 8:00 am on the morning of the explosions at WTC. ~~(S/OC/NF)~~ (u)

A third complainant later reported having seen, on September 11, 2001 (time not noted), a "big, white, model 2000 Chevrolet van, or possibly panel truck or U-Haul truck, bearing the words "Urban Movers" in black lettering along the side. The vehicle was observed in the Liberty State Park's Marine Terminal in Jersey City, NJ, located across the Hudson River from WTC. ~~(S/OC/NF)~~ (u)

Pursuant to this information, East Rutherford, New Jersey police authorities stopped an Urban Moving Systems van at a pre-positioned roadblock. The van, occupied by males similar to those described by witnesses, was traveling eastbound along State Route 3 in New Jersey. Following the stop, the police detained the five (5) occupants, all believed to be Israeli nationals, on the grounds that they may have possessed information pertaining to the WTC explosions. The matter was later forwarded to FBI-NK for further investigation. The five occupants were detained for further questioning and later held for violations of their immigration status. ~~(S/OC/NF)~~ (u)

A search of the van and the vehicle's occupants was conducted at the time of the vehicle stop. The vehicle was also searched by a trained bomb-sniffing dog which yielded a positive result for the presence of explosive traces. Swabs of the vehicle's interior were taken, and those samples were sent to the FBI laboratory for further analysis. Final results are still pending. ~~(S/OC/NF)~~ (u)

Seizure of the individuals' property yielded the following: a 35mm camera, several personal telephone-style notebooks, back packs, airline tickets with immediate travel dates for destinations world-wide, Israeli passports (in some case, expired), a German passport, \$4,700 in cash belonging to [REDACTED] and \$1,022 in cash belonging to [REDACTED] (u)

Student identification cards later believed to be false were also found. Oddly, equipment typically used in a moving company's daily duties was not found, including work gloves, blankets, straps, ropes, boxes, dollies, rollers, etc. Also not found was the video camera that T-1 observed at least one of the males using to film the explosion at WTC. (~~S~~/OC/NF) (u)

The five (5) detained Israeli nationals, identified as [REDACTED] and [REDACTED] were interviewed subject to the limited scope of determining whether a video camera had been used, and, if so, where the video camera is to be located now. The results of the individual interviews yielded a wide array of discrepancies with respect to the whereabouts of each of the individuals as it applied to the precise time of the attack on the WTC. (~~S~~/OC/NF) (u)

b6  
b7c

[REDACTED] advised interviewing agents that after having arrived at his workplace, Urban Moving Systems, located at 3 West 18th Street, Weehawken, NJ, around 8:00 am on September 11, 2001, he received a telephone call informing him that the first explosion had occurred. [Note: The first explosion actually occurred at 8:45am that morning.] [REDACTED] and his roommates (NFI) got into a company van and departed the workplace for a Gulf gasoline service station. Then, [REDACTED] in the company of his friends, traveled to another location in order to take photographs of the WTC. (~~S~~/OC/NF) (u)

[REDACTED] also stated that he arrived at work (Urban Moving Systems) around 8:00 am. Later, after [REDACTED] told [REDACTED] about the explosion at WTC, [REDACTED] looked on the Internet and went to the roof of the building to observe the WTC and take photographs. Then, [REDACTED] and friends (NFI) left the office and were caught in heavy traffic. Sometime between 10:00 am and Noon, and while attempting to return to their office, [REDACTED] and his friends (NFI) stopped at a parking lot (adjacent to an apartment building) to take more photographs. (~~S~~/OC/NF) (u)

[REDACTED] stated to one of the police officers after his arrest that the initial explosion occurred while he and the others were on the West Side Highway (Route 9A in New York City) traveling northbound toward the entrance of the Lincoln Tunnel. [REDACTED] later informed FBI-NK that he had arrived at work around 8:20 am, and only learned of the crash into the WTC from a co-worker. [REDACTED] and [REDACTED] got into a company van (the one they had used to travel from their residences in Brooklyn, NY to Weehawken, NJ) and traveled to a (u)

nearby parking lot to observe the WTC and take photographs. [REDACTED] and [REDACTED] were at the parking lot for approximately 10 minutes, sometime between 8:30 am and 9:00 am, but returned to Urban Moving Systems before 9:00 am. ~~(S/OC/NF)~~ (u)

b6  
b7C

Film obtained from the 35mm camera of one of the detainees was later developed and processed by FBI-NK. The photos depict [REDACTED] and [REDACTED] located at an observation point later determined to be the parking lot adjacent to the Doric Tower apartments located at 100 Manhattan Avenue in Union City, NJ. The three (3) Israelis, sitting together on top of a white van, are visibly smiling on at least three (3) of the photographs. ~~(S/OC/NF)~~ (u)

The photographs also revealed that all five (5) Israelis later observed the WTC burning from a location on top of the roof of an Urban Moving Systems warehouse located adjacent to the Urban Moving Systems office location described herein. ~~(S/OC/NF)~~ (u)

At this point, more interviews were conducted to verify the accuracy of their statements, as well as to obtain any additional information concerning the video camera that was allegedly used by the Israelis. One such interviewee, T-3, claimed to have seen [REDACTED] in the Doric Towers on the afternoon of September 10, 2001. According to T-3, [REDACTED] rode the elevator with T-3 and another, unidentified, Spanish-speaking male whom T-3 observed exiting the elevator on Floor 3. T-3 observed [REDACTED] exiting the elevator on Floor 9. Oddly, [REDACTED] identified himself to the Spanish-speaking male as a "construction worker" working in the building until 7:00 pm that night. [Note: T-3 identified [REDACTED] from a photo lineup comprised only of the photographs of the five detained Israelis.] (u)

T-1, the source of the original information pertaining to the Israeli males, was re-interviewed at a later date. T-1 confirmed for interviewing agents that it was a video recording device, rather than a still camera, that the Israelis had used in filming the WTC from atop the van. In fact, T-1 recalled quite clearly that the camera was a small, hand-held unit, with a Liquid Crystal Display (LCD) screen which folded out and could be used in "panning." ~~(S/OC/NF)~~ (u)

In the early phases of the investigation, several other complaints surfaced concerning trucks and/or vans belonging to Urban Moving Systems that had been sighted in locations of (u)

significance with respect to the overall investigation of the hijacked flights on September 11, 2001. For instance, two (2) complaints were received which indicated that Urban Moving Systems vehicles had been spotted in the greater Boston, MA metropolitan area, one in Plymouth, MA and one in Nashua, NH. Additionally, an Urban Moving Systems truck (traveling westbound) had been stopped on September 10, 2001, near Montoursville, PA. At the time of the vehicle stop, the driver and passenger, [REDACTED] and [REDACTED] were identified as Israeli nationals. Later, the same truck was stopped on September 12, 2001 while traveling eastbound toward New Jersey. ~~(S/OC/NF)~~ (u)

b6  
b7C

Based primarily on the inconsistencies found in the statements of the five (5) detained Israelis, and the interviews conducted of T-1 and other tenants of the Doric Towers apartments, FBI-NK conducted polygraphs of [REDACTED] and [REDACTED] on September 13, 2001 concerning the issue of whether a video camera had been used to film the crash of an aircraft into the WTC. Both [REDACTED] and [REDACTED] denied that a video camera had been used. [REDACTED] ~~(S/OC/NF)~~ (u)

(S)

Based upon the aforementioned facts, FBI-NK then obtained a search warrant to search the offices of Urban Moving Systems in Weehawken, NJ. The search, conducted on September 13, 2001, met with negative results concerning a video camera. Nevertheless, fifteen (15) computers and a network server were seized from the Urban Moving Systems office. FBI-NK noted the unusually large number of computers relative to the number of employees for such a fairly small business. Further investigation identified several pseudo-names or aliases associated with Urban Moving Systems and its operations. ~~(S/OC/NF)~~ (u)

Based on information provided by the Miami Division, Newark initially detained and interviewed four (4) employees of Classic International Movers (CIM), a New Jersey-based moving company which was believed by Miami to have been utilized as a mover by one of the nineteen (19) alleged hijackers involved in the terrorist attacks. All four detained employees were identified as Israeli nationals who had [redacted] and recently entered the U.S. from various locations in South America. (S/OC/NF)

FBI-NK obtained witness statements and a gasoline receipt from the Gulf service station where the Israelis had purchased gasoline on September 11, 2001. Investigation determined that the Israelis purchased gasoline at approximately 2:14 pm, which was subsequently corroborated by reviewing the photographs taken by the Israelis that day. One such photograph depicts [redacted] using a squeegee to clean the windows of an Urban Moving Systems vehicle. Because the picture is chronologically one of the last taken that day, the gasoline had to have been purchased after the attack on the WTC. (S/OC/NF) (u)

(S)  A review of EZ-Pass records provided little by way of determining the exact location of the Israelis' vehicle (white van) during the actual time of the attack. According to EZ-Pass, the Urban Moving Systems van used by the Israelis to travel from Brooklyn, NY (location of their residences) to Weehawken, NJ on the morning of September 11, 2001 passed through the Brooklyn, NY entrance to the Brooklyn-Battery Tunnel at 7:48 am. (S/OC/NF) (u)

FBI-NK obtained the videotape of a local news helicopter crew which provided footage of the explosion beginning just minutes after the initial impact of the aircraft into the North Tower (Tower #1) of the WTC. A comparison of this videotape with the still photographs taken by the Israelis implied that the Israelis photographs were taken closer in time to the explosion of Tower #2 (South Tower) than to the initial impact into Tower #1. This comparison, albeit non-scientific, corroborated the three Israelis' claim that they departed Urban Moving Systems for the parking lot observation point after hearing of the initial explosion.

Liaison with the Federal Aviation Administration (FAA) resulted in FBI-NK obtaining a duplicate record of the metropolitan New York Air Traffic Control radar traffic records for the morning of September 11, 2001. By way of background, one of the earliest photographs taken by the Israelis from the parking lot observation point shows what is believed to be a local news helicopter hovering over the Hudson River between the parking lot and the WTC (this helicopter appeared in the foreground of the third photograph taken). The FAA's radar traffic records identify a helicopter, belonging to a local radio station AM 880, slowly traveling in a southerly direction down the Hudson River and then hovering from 8:50 am until 9:03 am, (the time of the crash into Tower #2), at a position between Union City and the WTC on the morning of September 11, 2001. Although the results of this analysis verified that the Israelis were at the parking lot observation point between 8:50 am and 9:03 am, it did not provide a precise time. (S/OC/NF) (u)

According to T-1, it was the call from T-2, who is a neighbor and close friend, which initially prompted T-1 to look out of the window towards the WTC. It was at that time that T-1 had also observed the Israelis atop the white van. Since T-1 believed that T-2's call came immediately after the first explosion at the WTC, FBI-NK attempted to obtain the toll records of T-2's residential telephone for the purpose of determining the exact time of T-2's call. Unfortunately, electronic records of (u)

[REDACTED] was on the Internet, [REDACTED] was also present. Unfortunately, the second interview of T-5 was not conducted for the purpose of verifying T-5's earlier statements. Instead, the interview produced only additional background on Urban Moving Systems. (S/OC/NF) (u)

~~(S)~~/~~OC/NF~~) A search of the offices of Urban Moving Systems, the employer for all of the Israelis, failed to uncover a video camera. Due to the on-going tasking of those agents involved with the initial investigation, the FCI squad was unable to obtain a complete written record of all interviews and investigative actions undertaken until several days later. During the course of those days, the FCI squad's independent investigation, to include FCI interviews and polygraphs of the five (5) Israelis, revealed that the five Israelis most likely did not possess prior knowledge of the WTC events. It is opined that the Israelis probably arrived at the parking lot observation point between the first and second attacks on the WTC. X

(u) of the helicopter could be determined, then a close approximation of the time at which the photograph was taken could be made.

(U) ~~(S)~~ Discussion with Federal Aviation Administration (FAA) representatives in Washington D.C. provided the following information; ATC tapes of the WTC event could be obtained in a CD-ROM format allowing viewing on a computer. The ATC radar information is not viewable from the time of 09:03am to 09:07am. With the WTC event occurring at approximately 08:46:35am Eastern Standard Time (EST) or 12:46:35am Greenwich Mean Time (GMT), [according to the timing window on the ATC tape], enough air traffic was captured on the tapes to provide a good analysis of air traffic in the vicinity of the WTC during the time that the photograph was taken.

~~(S)~~ Taking in account the position of where the photograph was taken relative to the WTC, identity of the helicopter in the picture is most likely a news helicopter with the FAA registration - N8BQ.

~~(S)~~ N8BQ arrived on station in the general vicinity where it was photographed at approximately 08:50 EST. N8BQ stayed at this position until 09:00 EST when it traveled in a South-West heading to a point south of World Trade Tower Number two. At this position, it would be out of the visual field of view for the photograph. This ten minute window does not provide enough information to accurately pinpoint the precise time at which the photograph was taken.

~~(S)~~ After increasing the resolution of the photograph and comparing the burn progression on World Trade Tower Number One to the video of the event taken from N8BQ, it is opined that the photograph depicts the scene at approximately 09:00am EST.

~~(S)~~ No further analysis of the radar tapes is expected at this time.

Results of Examinations:

(U) (S) The submitted K1966 video tape specimen was reviewed. Best frames depicting white vans were located and electronically digitized and examined using available image processing techniques.

(U) A set of operations was performed that included brightness and contrast adjustment, sharpening, and unsharp masking. The results, however, proved minimal. The final images were recorded on pictrography paper (FUJI prints), and CD-R disks.

# Conspiracy theories say Israel did it

## Muslims blame Sharon, Mossad

By James Cox  
 USA TODAY

ISLAMABAD, Pakistan — In their quest to solve what one Arab newspaper called "the Great Whodunnit," Muslims the world over are pointing an accusing finger at their archenemy: Israel.

From Cairo to Kuwait and Damascus to Dushanbe, Muslims have singled out the Jewish state as the unseen hand behind the Sept. 11 terrorist attacks that felled the World Trade Center towers, ripped a fiery gash in the Pentagon and shook the American psyche.

In casual conversations, newspapers and Internet chat rooms, many in the Muslim world are endlessly chewing over and recycling unsubstantiated rumors that implicate Israel. They're saying, for example, that:

► Four thousand Jews who worked at the

By Mike Segar, Reuters

**Trade Center:** Some say 4,000 Jews stayed home from work at the twin towers Sept. 11.

### The Muslim world

World Trade Center were mysteriously absent the day hijackers crashed two airliners into the towers.

► A group of five Jews was arrested shortly following the attacks after being spotted videotaping the crashes on a New York rooftop and dancing in jubilation.

Typical is an editorial in the *Syria Times*. It named Israeli Prime Minister Ariel Sharon as the brains behind the Sept. 11 horror. "Sharon is known for his experience in masterminding and carrying out massacres and collective killings," the newspaper said. "The recent attacks are actually acts of professional criminals like Sharon and his ilk."

Conspiracy theories have been ubiquitous in the Middle East and Central Asia for centuries. Wherever there are conflicts, enemies conjure up complicated scenarios blaming each other for evil deeds. Israel is a frequent villain.

This month's attacks spurred conspiracy talk outside the Muslim world as well. Immediately after the attacks on New York and Washington, there were rumors in the USA that hundreds of Arab-Americans in New York had been warned and didn't go to work in Manhattan that day.

Some of the fuel for the current conspiracy talk among Muslims comes from their religious beliefs. On the streets of Islamabad, many peo-

ple point out that the killing of innocents violates the teachings of the holy Koran. That prescription is so central to Islam that many Muslims simply refuse to believe the perpetrators of the attacks could share their faith. They are ready to exonerate even professed enemies of the West, such as Osama bin Laden.

"I believe Osama would not do such a thing because it is against Islam," says Zafar Mahmood Sheikh, a consultant to one of Pakistan's main Muslim political parties.

For others, the simultaneous hijacking of four American airliners was something even the cleverest of Middle East terror groups couldn't pull off.

"I can smell Israeli fingers behind this," Salim Abu Sultan, a Palestinian diplomat, told the *Gulf News*, a daily in the United Arab Emirates. "The scope of the attack was beyond the capability of Arabs . . . Only the Israelis have the ability to do such things."

In the shadows, many Muslims say they see Israel's vaunted Mossad spy agency pulling the strings as puppetmaster.

"The most popularly accepted theory," *Gulf News* reported, is that Sharon's government engineered the event "to fuel American anger against Arabs and obtain a 'green light' for Isra-

el's ongoing persecution of the Palestinians."

Within days of the attacks, rumors of Jewish involvement had sped from the Arab countries of North Africa and the Middle East to Muslim nations of Central and South Asia, even reaching the world's most populous Muslim country, Indonesia in the South Pacific.

But Muslims in the USA clearly are generating much of the anti-Israeli vitriol on the Internet, says Rasul Bakhsh Rais, an economist at Quaid-e-Azam University in Islamabad.

"I'm getting these e-mails every day. Who are these people? I never gave them my e-mail address," he says, scrolling through the electronic bile.

The accusations directed at Israel have taken on a crude flavor.

An editorial cartoon in Wednesday editions of the Pakistani daily *The Nation* depicted Israel as a pig, the USA as a salivating wolf and the Muslim world as a lamb. As the pig defecated upstream, the angry wolf blamed the downstream lamb for "making the water muddy."

An op-ed piece in the same edition repeated the rumor that 4,000 Jews escaped harm on Sept. 11. It quoted a Canadian "intelligence expert" as saying that U.S. intelligence agencies have found "links" between the attacks and the Mossad.

The "reported absence" of Jewish fatalities suggests "word had come down to them through some mysterious grapevine simply telling them not to go to work that day," wrote Kaleem Omar, a commentator for Pakistan's *The News*, a daily.

The grieving father of suspected hijacker Mohamed Atta, interviewed by Egyptian news agency MENA, wondered why U.S. media outlets had chosen to ignore reports that U.S. authorities "seized a number of Jews while they were dancing in celebration over the incidents."

The answer to that question was obvious to Ismail Abu-Shanab, a member of the militant Palestinian group Hamas.

U.S. news organizations "are largely controlled by the Zionist lobby," he told reporters from a pro-Hamas Web site.

Not all the accusations are reserved for Israel. The willingness of moderate Arab nations to aid a U.S.-led coalition against terrorism only proves "Arab rulers are stooges of Americans, who are always being used by the Jews, our real enemies," says Sheikh, the Pakistani political consultant.

The Jewish conspiracy notion enjoys wide credibility in Pakistan, which risks a popular backlash if U.S. forces assault Afghanistan in an effort to capture or kill bin Laden.

[redacted] stated that [redacted] told him that he forgot to bring his camera on the roof to take pictures, because it would have been an unusual, or awesome sight.

~~(S)~~ [redacted] mentioned that he did not believe it was normal for the workers to "hang out" on the roof for smoke or coffee breaks. [redacted] did mention, though, that if there is a moving job scheduled for that morning, [redacted] and usually others are at the location between 7:00 and 8:00 am.

(U) ~~(S)~~ [redacted] ended the interview by offering information that one can buy an Israeli paper in New York City and find pages of advertisements or job openings for moving companies in that area. [redacted] stated that most moving companies in New York are owned by Israelis.

(U) ~~(S)~~ At the conclusion of the interview, [redacted] contacted the Israeli Consul and spoke with [redacted] at the Israeli Consulate, Philadelphia, Pennsylvania.

[redacted]  
N.Y. [redacted] was interviewed inside the Newark Division of the FBI. After being advised of the identity of the Agent and purpose of the interview, [redacted] was furnished with an FD-395: Interrogation: Advice of Rights. [redacted] read this form, stated that he understood, and signed it. [redacted] then furnished the following information:

[redacted] is a citizen of the State of Israel. He was a [redacted] [redacted] was [redacted] He is a graduate of the [redacted]

[redacted] has been in the United States for approximately one year. He has been back to Israel for one month during this period. He is currently in the country illegally as his tourist visa has expired. He has been employed as a [redacted] at Urban Moving Systems for approximately [redacted] He is paid [redacted] in cash by the owner of Urban Moving Systems, identified as [redacted] (LNU) (later identified as [redacted]).

On 9/11/01, [redacted] arose between 7 and 7:30 A.M. He rode to work with two co-workers identified as [redacted] and [redacted]. These individuals are [redacted] and [redacted].

After leaving [redacted] the van went to [redacted] [redacted] and picked up [redacted] another Urban Moving employee. They traveled through the Brooklyn Battery Tunnel and the Lincoln Tunnel. [redacted] advised that they used the EZ Pass lanes at both crossings. They arrived at Urban Moving Systems in Weehawken between 8 and 8:30 A.M. They opened the office for the day's business. [redacted] (LNU) had not yet arrived.

Shortly after the first explosion, [redacted] received a telephone call on his cell phone [redacted] from a friend of his, identified only as [redacted] (LNU). [redacted] told [redacted] of the explosion at the World Trade Center. [redacted] and [redacted] accessed the internet through two of the office computers and began reading about the events on CNN.com and YNIT.com, an Israeli newspaper.

, On 9/13/01 , Page 2

A few minutes later, [REDACTED] and [REDACTED] all went outside to look at the World Trade Center as it is visible from Urban Moving Systems. [REDACTED] and [REDACTED] suggested that they take a picture of the event for history. [REDACTED] and [REDACTED] climbed into the company van and drove to a parking lot fronting the Hudson River, which gave them a view of the entire length of both towers. [REDACTED] is not sure if [REDACTED] was in the van with them. [REDACTED] is unsure of the exact location of this lot but advised that it only took five minutes to get there. [REDACTED] and [REDACTED] all climbed onto the roof of the van to get a better view of what was going on. [REDACTED] admitted that they all took still photographs of the World Trade Center with [REDACTED] 35 MM camera, but denied that he took any video or saw anyone with a video camera. No one mounted the camera on a tripod or any other mounting device. [REDACTED] has no explanation of reports that they were observed videotaping the event.

b6  
b7C

After spending a few minutes at the lot, they drove back to Urban Moving Systems, where they went up on the roof of the building and took more still photographs but no videotape. [REDACTED] stated that only one side of one tower is visible from the roof of Urban Moving. At this point, [REDACTED] apologized for appearing happy in the photographs. [REDACTED] stated that Israel has been dealing with incidents like this for years. He believes that the United States will take steps to stop terrorism in the world.

After coming down from the roof, [REDACTED] went back inside Urban Moving and again got on the internet, accessing CNN. com and YNIT. com.

After Urban Moving closed for the day, [REDACTED] and [REDACTED] tried to find a way to get back to New York City. On the way, they stopped at White Glove Movers. [REDACTED] does not know the exact location of White Glove but advised that it was about a ten minute drive from Urban Moving Systems. [REDACTED] waited outside while [REDACTED] went inside and spoke with [REDACTED] (LNU). [REDACTED] indicated that many of [REDACTED] work at White Glove. It was after leaving White Glove and looking for a crossing into New York, that they were stopped by the Police and arrested.

It was at this point that [REDACTED] admitted that he had additional information. [REDACTED] stated that on the way to the parking lot, [REDACTED] remarked " I am glad I brought my camera today."

[Redacted] further remarked that the camera that he had used belonged to [Redacted] had a backpack with him that could have contained a video camera. [Redacted] also stated that there was a period when [Redacted] and [Redacted] were on the roof taking still photos. [Redacted] was inside the van. [Redacted] said it is possible that [Redacted] was using a video camera from inside the van, but that [Redacted] did not see him doing so. [Redacted] was shown a copy of notebook that was found inside the van. [Redacted] identified the notebook as belonging to him. [Redacted] was asked about two telephone numbers: [Redacted] and [Redacted] identified these numbers as the work and home telephone numbers of a female friend, [Redacted]. He also furnished her home address: [Redacted] New York, N.Y. At first, [Redacted] denied knowing her occupation, then admitted that she is employed as a [Redacted] at [Redacted].

Dear [Redacted]

I wish to personally thank you for the assistance and cooperation that you and your staff at the Special Housing Unit (SHU) provided to Acting Supervisory Special Agent (A/SSA) [Redacted] and participating other Special Agents of the Federal Bureau of Investigation (FBI) during their recent interviews and polygraphs of subjects detained in conjunction with the terrorist attack on the World Trade Center, September 11, 2001.

The efforts of you and your staff are a credit to the dedication and professionalism of the Bureau of Prisons, and reflect well on all of its employees. It is that same dedication and professionalism which helps expand the brotherhood of law enforcement in New York City, making us all more successful in fighting crime and ensuring domestic security. The assistance and cooperation that you and your staff provided was singularly outstanding. In particular, I'd like to recognize the following individuals:

[Redacted]

In the event that a member of the SHU staff, serving between the hours of 8:00am and 12:00am on September 20, 2001, and later, on November 14 and 16, was inadvertently omitted, I ask that they be recognized as well.

Suspected Israeli Spies Held by U.S.

WASHINGTON - Some 60 Israelis, who federal investigators have said are part of a long-running effort to spy on American government officials, are among the hundreds of foreigners detained since the Sept. 11 terror attacks, Fox News has learned.

The Israelis, a handful of whom are described as active Israeli military or intelligence operatives, have been detained on immigration charges or under the new Patriot Anti-Terrorism Law. Federal investigators said some of them failed polygraph questions inquiring about alleged surveillance activities against and in the United States.

There is no indication the Israelis were involved in the Sept. 11 attacks, but investigators suspect that they may have gathered intelligence about the attacks in advance and not shared it.

A highly placed investigator told Fox News there are "tie-ins," but when asked for details flatly refused to describe them. "Evidence linking these Israelis to 9-11 is classified, I cannot tell you about evidence that has been gathered. It is classified information," the source said.

An Israeli Embassy spokesman offered categorical denials, and said any suggestion of Israelis spying on or in the United States is simply not true.

But Fox News has learned that one group of Israelis spotted in North Carolina recently is suspected of keeping an apartment in California to spy on a group of Arabs who the U.S. authorities are investigating for links to terrorism.

Numerous classified documents obtained by Fox News indicate that even prior to Sept. 11, as many as 140 other Israelis had been detained or arrested in a secretive and sprawling investigation into suspected espionage by Israelis in the United States.

Investigators from numerous government agencies are part of a working group that has been compiling evidence in the case since the mid-1990s. These documents detail hundreds of incidents in cities and towns across the country that investigators say quote "may well be an organized intelligence-gathering activity."

Investigators are focusing part of their efforts on Israelis who said they are art students from the University of Jerusalem or Bezalel Academy and repeatedly made contact with U.S. government personnel by saying they wanted to sell cheap art or handiwork.

Documents say they "targeted" and penetrated military bases, the Drug Enforcement Administration, the Federal Bureau of Investigations, dozens of government facilities and even secret offices and unlisted private homes of law enforcement and intelligence personnel.

b1

Another part of the investigation has resulted in the detention and arrest of dozens of Israelis working at

[redacted]

kiosks in American malls, where they had been selling toys called "Puzzlecar" and "Zoomcopter."

Investigators suspected a front. Shortly after the New York Times and Washington Post reported the detentions of Israelis on immigration charges last month, the carts began vanishing.

Why would Israelis spy in and on the United States?

A General Accounting Office investigation referred to Israel as Country A and said, "According to a U.S. intelligence agency, the government of country A conducts the most aggressive espionage operation against the U.S. of any U.S. ally."

A Defense Intelligence report said Israel has a "voracious appetite for information."

"The Israelis are motivated by strong survival instincts which dictate every facet of their political and economic policies," the DIA report said. "it aggressively collects military and industrial technology and the U.S. is a high priority target."

"Israel possesses the resources and technical capability to achieve its collection objectives," the document concludes.

2) FBI mailing hundreds of thousands of cards seeking clues about anthrax-tainted letters  
Associated Press

December 13, 2001, 12:02 PM EST

NEWARK, N.J. -- The FBI will send out cards this holiday season to hundreds of thousands of New Jersey and Philadelphia residents in an effort to find those responsible for mailing four anthrax-laced letters in the Trenton area. The cards will include a sample of the handwriting from the tainted letters and excerpts from the profile FBI experts have developed of the anthrax mailer's likely personality traits.

They also will remind residents they can collect a reward of more than \$1 million for information leading to a conviction, said Special Agent Sandra Carroll, a spokeswoman for the Newark FBI office.

"We're trying to keep the information in front of people to see if they think of something, or if something in it acts to jog their memories," Carroll told The Star-Ledger of Newark for Thursday's editions. The cards will go out before Christmas to a broad area surrounding Trenton and extending into Philadelphia. The four letters passed through the Trenton-area postal processing plant in Hamilton.

Carroll said the cards will be similar to those sent out in October by the Postal Service, which told people how to handle suspicious packages. The final form and wording of the FBI's card is still under development.

On 08/20 and 08/21, IRS [redacted] FBIHQ was accompanied by SSA [redacted] FBIHQ and [redacted] [redacted]. Their clearances were passed via [redacted] the week prior to their arrival. They arrived in Newark to review some sensitive 303 matters. The files were found to be all in order and they were pleased with the Newark investigation. This is a national initiative via HQ personnel and their findings will be written into a report, a copy of which will be sent to the Newark case file. This was not an audit of any type of our investigation, it was more like a 'field trip' so that they could get a feel for the surroundings, see the buildings/company involved etc.... as well as speak to the New York polygraph examiner who was involved in the case. C-9 played tour guide for the duration of their trip and answered all of their questions.
